

LAMB HAS SIX LEGS VICE PRESIDENT OF TIRE EXPLODES, A MAN AND IS QUITE FRISKY B. OF R. T. VISIT FALLS DEAD AND OGDEN LODGE CROWD GATHERS

Frank Smyth, secretary of the International Land & Livestock company, is the possessor of a six-weeks old lamb with six legs. He is taking good care of the little cripple and expects that it will grow to be a good sized sheep.

The four natural legs are perfectly formed and the lamb is as frisky on them as lambs with no freak legs. The two additional legs are formed on the left side of the body immediately back of the shoulder blade, attaching to the ribs by means of bony cartilage which has formed breast and partial shoulder blade.

The two freak legs are about the same length as the natural ones, but the toes point in different directions and the limbs are rather crooked. They swing back of the left front leg and do not much impede the lamb in its movements about the lawn, where it is being grazed.

It is said by sheepmen that freak lambs are quite frequent, but it is seldom that they live more than a few days. The lamb Mr. Smyth has is in the best of condition. The animal was brought from the company's shearing pens in the northwest part of Boxelder county.

CONTRACTS GO TO OGDEN COMPANY

Contracts for roofing and covering six administration buildings at Garfield, Utah, have been awarded to the Badger Coal & Lumber company of Ogden, by the American Smelting company. The contract calls for an outlay of \$18,000 and a gang of workers will leave here Monday to do the roofing.

SUNDAY SERVICES IN SIXTH WARD

There will be some unique features in the services at the Sixth Ward on Sunday night at 7 p. m., corner Madison and Twenty-third street.

Elders Nephi J. Brown and Adam L. Peterson will be the speakers and they are both good soloists and will prelude their talks with a song. Other musical features will be furnished by the ward quartette.

The old folks of the ward are especially asked to be present.

FOUR ALARMS OF FIRE; OFFICER HAS HAND AUTOMOBILE IN A BLAZE BROKEN WHILE SHAKING HANDS

The fire department answered four alarms today. The first was to Wall avenue and Twenty-third street, where a Hupmobile belonging to Roland Ballantyne had taken fire. The mechanism of the car was damaged.

The other runs were to grass fires, one at Harrison avenue and Twenty-fifth street, one at Fillmore avenue and Twenty-fifth street, and the third, to Lincoln avenue and Ninth street.

Last night, the department extinguished a blaze at the rear of the Bismark saloon, a shed having been set on fire by trespassers.

DESERTS WIFE AND IS NOW IN TRENCHES IN EUROPE

Apparently preferring the horrors of the bloodiest war known in history, to living with his pretty 17-year-old wife, Clarence Earl Penrod has been charged with desertion and failure to provide for Nina Arnold Penrod, and the latter has been granted a decree of divorce and the custody of the three-year-old child born after the father's skipping.

Penrod after leaving Ogden went straight to Chicago, from there to Canada thence to England apparently to join the British army.

They were married in March, 1914, and the husband decamped as soon as the war broke out.

HEAD OFFICIALS OF RIO GRANDE ARE GUESTS

H. U. Mudge, president; A. E. Sweet, vice president and a number of other prominent officials at Denver & Rio Grande railroad came to Ogden today from Salt Lake, completing an inspection trip.

They are to be tendered a banquet at 5 p. m., at the Hermitage hotel, in Ogden canyon, by W. H. Wattis, president of the Weber club.

Ogden lodge No. 68, Brotherhood of Railroad Trainmen, was visited last night by Vice-President R. McIntire of the order, a special meeting having been called for the purpose of greeting the prominent official. Following a business session of the lodge, the meeting was thrown open to the Ladies Auxiliary, B. of R. T. and the joint assembly was addressed by Vice-President McIntire on the subject of the "Eight-hour Day." He was introduced by Joseph Crompton, president of the local lodge, and held the close attention of the railroad men and the ladies by his discussion of the vital subject. In addition to this address, the program included the presentation of reports by A. Scherer, delegate to the national convention of the B. of R. T., and Mrs. H. H. Day, delegate to the national convention of the L. A. of B. of R. T., recently held in Chicago. A brief talk was given by C. S. Warner, secretary of the local. Miss Dorothy McGaw favored the assembly with a dramatic reading and a violin and piano duet was played by Harry and Hilman Lyon.

Following the program, ice cream and cake were served.

Vice-President McIntire will deliver the principal address at the annual joint memorial service of the B. R. T. and O. R. C., which will be held tomorrow afternoon in the Fraternity block.

WEATHER BUREAU PREDICTS HEAT

Washington, June 17.—Weather predictions for the week beginning Sunday, issued by the weather bureau today, follows:

Plain states and upper Mississippi valley generally warmer first half of week. Cooler, with probably local thunder showers latter half of week.

Rocky mountain and plateau regions generally fair. Warm first half of week, followed by change to cooler after Wednesday in the northern portions.

Pacific states generally fair with temperature near normal.

A coincident of unparalleled peculiarity occurred at noon today near the corner of Lincoln avenue and Thirty-second street. A big automobile covered with dust and heavily loaded with camping paraphernalia was going south on Lincoln avenue when a tire blew out identical in sound to the truck of a rifle. At precisely the same moment and opposite the machine, a man threw up his hands, reeled and plunged forward on his face. Several persons passing saw the "tragedy" and rushed to the "wounded" man at the same time howling at the driver of the "murder car" to halt. The driver stopped for two reasons, because his car was running on a flat tire and to determine the cause of the explosion.

The peculiar incident and the confusion which followed would have led one to conclude that some moving picture company was producing "The Exploits of Dead-Eyed Dick" or "The Murder of Murphy at High Noon."

A crowd of about fifteen men soon gathered, including the scared occupants of the "Murder Car." The automobile travelers consisted of a man about 34 years old a woman at least 14 years younger.

As the crowd attempted to revive the "dead" man, some wild-eyed new arrival spluttered out, "Who shot him?"

When some one mentioned that the shot came from the automobile, the woman threw her hands around her husband's neck and screamed.

Suddenly, amid the consternation, the "dead" man opened his eyes, rolled them in the manner that a negro does when he sees a ghost and, getting up, hurried away. He had a sunstroke and happened to fall at the same time that the machine tire exploded. He refused to tell his name or answer any question but went for the railroad tracks. He appeared to be a transient.

HORSE SALES FOR THE WEEK HAVE BEEN VERY LARGE

During the week the Ogden Horse Sales company has sold horses valued at over \$400,000. Two thousand animals were disposed of for war purposes and 2000 were auctioned to buyers from all parts of the United States.

The Italian war board is now here and will be joined by French officers next week. They are buying for their cavalry in the war zone.

Among the cowboys who are riding at the stockyards across the viaduct is Dave White, champion broncho buster of the world.

Ogden is now the greatest horse market in the United States.

'BILLY' LEE BECOMES INVENTOR OF A ROPE CLAMP

W. M. Lee, stage manager of the Alhambra theater, has been granted a patent on a rope clamp, which promises to make "Billy" a most prosperous individual. Louis Peery is associated with Mr. Lee in the patent.

A very simple contrivance is the rope clamp. It is a letter S in steel, with a set screw in a handle attached to the S. When a rope is passed through the bends of the S and the clamp is applied, the rope cannot slip.

The purposes for which the invention can be used are:

Attaching counter weights on scenery lines.

Attaching counter weight arbors on wire rope for elevators.

"Come-alongs" for electrical purposes.

For clamping on pulley tackle for extra purchase.

For farmers in setting up fences, three or four wires at a time.

For garages to hook onto any part of rope as tow for a crippled car.

For canal purposes in towing ships.

For tightening buy wires, cables or any stay.

For attaching a team to any hoisting apparatus.
